CORDLESS VARIABLE SPEED BLOWER

INSTRUCTION MANUAL

SPECIFICATIONS

Voltage: 18V
No Load Speed: 1,400-12,000/min
Max. Air Speed: 210km/hr
Max. Air Volume: 105m³/h
Speed Settings: 6
Weight: 1.93kg

STANDARD EQUIPMENT

Cordless Blower
Split Blower Tube
Blower Tube Extension

WARRANTY

IN ORDER TO MAKE A CLAIM UNDER THIS WARRANTY YOU MUST RETURN THE PRODUCT TO YOUR NEAREST BUNNINGS WAREHOUSE WITH YOUR BUNNINGS REGISTER RECEIPT. PRIOR TO RETURNING YOUR PRODUCT FOR WARRANTY PLEASE TELEPHONE OUR CUSTOMER SERVICE HELPLINE:

Australia 1800 069 486
New Zealand 0508 069 486

TO ENSURE A SPEEDY RESPONSE PLEASE HAVE THE MODEL NUMBER AND DATE OF PURCHASE AVAILABLE. A CUSTOMER SERVICE REPRESENTATIVE WILL TAKE YOUR CALL AND ANSWER ANY QUESTIONS YOU MAY HAVE RELATING TO THE WARRANTY POLICY OR PROCEDURE.

WARNING

The following actions will result in the warranty being void.

- If the tool has been operated on a supply voltage other than that specified on the tool.
- If the tool shows signs of damage or defects caused by or resulting from abuse, accidents or alterations.
- Failure to perform maintenance as set out within the instruction manual.
- If the tool is disassembled or tampered with in any way.

5 YEAR REPLACEMENT WARRANTY

Your Product is guaranteed for a period of 60 months from the original date of purchase and is intended for DIY (Do It Yourself) use only. If a product is defective it will be replaced in accordance with the terms of this warranty. Lithium Ion batteries and chargers are covered by a 36 month warranty. Warranty excludes consumable parts, for example: blower tubes.

ozito.com.au
1. **ASSEMBLY**

**WARNING:** ENSURE THE TOOL IS SWITCHED OFF AND BATTERY DISCONNECTED BEFORE PERFORMING ANY OF THE FOLLOWING TASKS.

**Fitting the Blower Tubes**

1. Align the split blower tube with the outlet of the blower.

2. Push the split blower tube onto the blower until it clicks into place.

3. Align the blower tube extension with the end of the split blower tube and slide into place.

4. To lock into place, rotate extension in clockwise direction until extension clicks into place.

5. To remove blower tube extension, rotate in anti-clockwise direction.
2. INSERTING & REMOVING THE BATTERY

Inserting the Battery Pack

1. Align the ribs of the battery with the recess in below the handle.

2. Slide the battery in so that it clicks into place.

Removing a Battery from the Blower

1. Press and hold the battery release tab to release the battery.

2. Slide the battery out.

3. CONTROLS

WARNING!: DO NOT USE THE BLOWER WITH ANY TYPE OF ACCESSORY OR ATTACHMENT. SUCH USAGE MIGHT BE HAZARDOUS.

Switching On and Off

1. To start the blower squeeze the on/off switch.

2. To stop the blower release the on/off switch.

WARNING!: DO NOT PUT PART OF YOUR BODY SUCH AS HANDS AND FINGERS NEAR THE INLET OR OUTLET OPENING.

Variable Speed Dial

The flow of air can be regulated by turning the variable speed dial.

• To achieve the greatest flow of air, move the dial to the highest number “6” setting.

• To lower the air speed rotate the variable speed dial to a lower speed, or “1” setting.

WARNING! DO NOT USE ANY ATTACHMENTS OR ACCESSORIES NOT RECOMMENDED BY THE MANUFACTURER OF THIS PRODUCT, AS IT CAN RESULT IN SERIOUS PERSONAL INJURY.
4. OPERATION

**Blowing**

The blower is ideal for blowing leaves, grass clippings and other debris.

The split tube allows for easy cleaning of outdoor furniture while the full-length tube makes easy work on paths and driveways.

Hold the blower firmly, squeeze the on/off switch, point the jet of air in front of you and move forward slowly. Move the blower from side to side, with the tube several inches above the ground.

Be careful where you point the jet of air as it can move heavy material and cause injury or damage to bystanders.

**Note:** Be aware of other people and animals in the area where you are to be operating the blower.

**Note:** Avoid collisions with hard objects which could damage your machine.

**WARNING!:** DO NOT SWITCH THE BLOWER ON IN ENCLOSED OR POORLY VENTILATED SPACES OR IN THE PRESENCE OF FLAMMABLE AND/OR EXPLOSIVE LIQUIDS, GASES AND POWDERS.
The tool is equipped with the battery protection system, which helps to ensure a long service life.

The output power automatically cuts off during operation when the tool and/or battery are placed under the following situations:

<table>
<thead>
<tr>
<th>Problem</th>
<th>Cause</th>
<th>Remedy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Blower is not starting</td>
<td>Possible clogging</td>
<td>Clean the blower tube and blower outlet of any leaves or debris.</td>
</tr>
<tr>
<td>Blower is not operating at full capacity</td>
<td>Possible clogging</td>
<td>Clean the blower tube and blower outlet of any leaves or debris.</td>
</tr>
<tr>
<td>Battery is low in charge</td>
<td>Charge battery</td>
<td></td>
</tr>
<tr>
<td>Battery not inserted properly</td>
<td>Insert battery pack correctly</td>
<td></td>
</tr>
<tr>
<td>Motor stops while blowing</td>
<td>Battery has no power</td>
<td>Charge battery</td>
</tr>
</tbody>
</table>

Note: Ozito Industries will not be responsible for any damage or injuries caused by the repair of the blower by an unauthorised person or by mishandling of the blower. This tool is designed for DIY use - use in commercial or industrial environments will void the warranty.

**DESCRIPTION OF SYMBOLS**

- **V**: Volts
- **Hz**: Hertz
- **W**: Watts
- **mA**: Milliamperes
- **/min**: Revolutions or reciprocation per minute
- **Double insulated**: Insulation between a tool and its power supply greater than 2000 V
- **Regulator compliance mark**: Indicate that product complies with CE regulation
- **Keep bystanders away**: Do not operate whilst people especially children or pets are in the area.

**BATTERY AND CHARGER SAFETY WARNINGS**

1. Before using the charger read all instructions and cautionary markings on the charger, battery pack and the product using the battery pack.
2. This charger is not intended for any uses other than charging rechargeable batteries. Any other use may result in risk of fire, electric shock or electrocution.
3. Do not place any object on top of the charger or place the charger on a soft surface that may result in excessive internal heat. Place the charger in a position away from any heat source.
4. To reduce risk of damage to the electric plug and cord, pull by the plug rather than the cord when disconnecting the charger.
5. Make sure the cord is located so that it will not be stepped on, tripped over, or otherwise subjected to damage or stress.
6. An extension cord should not be used unless absolutely necessary. Use of an improper extension cord could result in the risk of fire, electric shock or electrocution.
7. Do not operate the charger if it has received a sharp blow, been dropped or otherwise damaged in any way. Have it checked by an electrician or power tool repairer.
8. Do not disassemble charger. Take it to an electrician or power tool repairer when service or repair is required. Incorrect reassembly may result in a risk of electric shock, electrocution or fire.
9. To reduce risk of electric shock, unplug the charger from the outlet before attempting any cleaning. Removing the battery pack will not reduce this risk.
10. Never attempt to connect 2 chargers together.
11. Do not store or use the tool and battery pack in locations where the temperature may reach or exceed 40ºC (such as inside sheds or metal buildings in summer).
12. The charger is designed to operate on standard household electrical power (240 volts). Do not attempt to use it on any other voltage!
13. The battery pack is not fully charged out of the carton. First read the safety instructions and then follow the charging notes and procedures.
14. The longest life and best performance can be obtained if the battery pack is charged when the air temperature is between 18 - 24ºC. Do not charge the battery pack in an air temperature below 10ºC or above 40ºC. This is important and will prevent damage to the battery pack.
15. Do not incinerate the battery pack even if it is seriously damaged or is completely worn out. The battery can explode in a fire.
16. Never attempt to open the battery pack for any reason. If the plastic housing of the battery pack breaks or cracks, immediately discontinue use and do not recharge.
17. During charging, the battery must be placed in a well ventilated area.

**MAINTENANCE**

- Keep air intake clean and air vents free of debris to avoid overheating the motor.
- Do not use cleaning agents to clean the plastic parts of the tool. A mild detergent on a damp cloth is recommended. Water must never come into contact with the tool.
- If the blower vibrates abnormally, stop motor immediately. Abnormal vibration usually indicates a mechanical problem continued operation could lead to injury or damage.
- No lubrication is necessary as the motor is equipped with lifetime-lubricated bearings.

**BATTERY PROTECTION SYSTEM**

The output power automatically cuts off during operation when the tool and/or battery are placed under the following situations:

- When the tool is overloaded:
  - If this occurs, release the trigger switch and remove causes of overload, then pull the switch trigger again to restart.
- When the remaining battery capacity becomes low:
  - Recharge the battery pack.

**TROUBLESHOOTING**

**SPARE PARTS**

Spare parts can be ordered from the Special Orders Desk at your local Bunnings Warehouse.

For further information, or any parts not listed here, visit www.ozito.com.au or contact Ozito Customer Service:

Australia 1800 069 486
New Zealand 0508 069 486
E-mail: enquiries@ozito.com.au

**CARING FOR THE ENVIRONMENT**

Power tools that are no longer usable should not be disposed of with household waste but in an environmentally friendly way. Please recycle where facilities exist. Check with your local council authority for recycling advice.

Recycling packaging reduces the need for landfill and raw materials. Reuse of recycled material decreases pollution in the environment. Please recycle packaging where facilities exist. Check with your local council authority for recycling advice.
ELECTRICAL SAFETY

WARNING! When using mains-powered tools, basic safety precautions, including the following, should always be followed to reduce risk of fire, electric shock, personal injury and material damage.

Read the whole manual carefully and make sure you know how to switch the tool off in an emergency, before operating the tool.

SAVE ALL WARNINGS AND INSTRUCTIONS FOR FUTURE REFERENCE. THE TERM “POWER TOOL” IN THE WARNINGS REFERS TO YOUR MAINS-OPERATED (CORDED) POWER TOOL OR BATTERY-OPERATED (CORDLESS) POWER TOOL.

1. Work area safety
a. Keep work area clean and well lit. Cluttered or dark areas invite accidents.

b. Do not operate power tools in explosive atmospheres, such as in the presence of flammable liquids, gasses or dusts. Power tools create sparks which may ignite the dust or fumes.

2. Electrical safety
a. Power tool plugs must match the outlet. Never use with an extension cord unless designed for use with a power tool. Extension cords designed for outdoor use are recommended for outdoor use.

b. Avoid body contact with earthed or grounded surfaces, such as pipes, radiators, ranges and refrigerators. There is an increased risk of electric shock if your body is earthed or grounded.

c. Do not expose power tools to rain or wet conditions. Water entering a power tool will increase the risk of electric shock.

d. Do not abuse the cord. Never use the cord for carrying, pulling or unplugging the tool.

f. If a power tool is accidentally dropped into water, DO NOT attempt to retrieve it until it is dry. Then check the motor assembly for damage before putting it into service.

3. Personal safety
a. Stay alert, watch what you are doing and use common sense when operating a power tool.

b. Do not overreach. Keep proper footing and balance at all times. Keep the tool in control.

c. Use a firm grip on the handle and the switch trigger.

4. Power tool use and care
a. Do not force the tool. Use the correct tool for your application. The correct tool will do the job better and safer at the rate for which it was designed.

b. Do not use the tool if the switch does not turn it on and off. Any power tool that cannot be controlled with the switch is dangerous and must be repaired.

c. Disconnect the plug from the power source and/or the battery pack from the power tool before making any adjustments, changing accessories, or storing power tools. Such precautions reduce the risk of starting the power tool accidentally.

4. Power tool use and care
a. Do not force the tool. Use the correct power tool for your application. The correct tool will do the job better and safer at the rate for which it was designed.

b. Do not use the tool if the switch does not turn it on and off. Any power tool that cannot be controlled with the switch is dangerous and must be repaired.

c. Disconnect the plug from the power source and/or the battery pack from the power tool before making any adjustments, changing accessories, or storing power tools. Such precautions reduce the risk of starting the power tool accidentally.

d. Store idle power tools out of reach of children and do not allow persons unfamiliar with the power tool or these instructions to operate the power tool. Power tools are dangerous in the hands of untrained users.

5. Battery tool use and care
a. Recharge only with the charger specified by the manufacturer.

b. Use power tools only with specifically designated battery packs.

6. Service
a. Have your power tool serviced by a qualified repair person using only identical replacement parts. This will ensure that the safety of the power tool is maintained.

GENERAL POWER TOOL SAFETY WARNINGS

WARNING! Read all safety warnings and all instructions. Failure to follow the warnings and instructions may result in electric shock, fire and/or serious injury.

1. Work area safety
a. Keep work area clean and well lit. Cluttered or dark areas invite accidents.

b. Do not operate power tools in explosive atmospheres, such as in the presence of flammable liquids, gasses or dusts. Power tools create sparks which may ignite the dust or fumes.

2. Personal safety
a. Stay alert, watch what you are doing and use common sense when operating a power tool.

b. Always wear eye protection. Protective equipment such as dust mask, non-slip safety shoes, hard hat, or hearing protection used for appropriate conditions will reduce personal injuries.

c. Prevent unintentional starting. Ensure the switch is in the off-position before connecting to power source and/or battery pack, picking up or carrying the tool. Carrying power tools with your finger on the switch or energising power tools that have the switch on invites accidents.

d. Remove any adjusting key or wrench before turning the power tool on. A wrench or a key left attached to a rotating part of the power tool may result in personal injury.

e. Do not overreach. Keep proper footing and balance at all times. This enables better control of the power tool in unexpected situations.

3. General power tool use and care
a. Use a firm grip on the handle and the switch trigger.

b. Use the power tool, accessories and tool bits etc. in accordance with these instructions, taking into account the working conditions and the work to be performed. Use of dust collection can reduce dust-related hazards.

If the supply cord is damaged, it must be replaced by an electrician or a power tool repairer in order to avoid a hazard.

Note: Double insulation does not take the place of normal safety precautions when operating this tool. The insulation system is for added protection against injury resulting from a possible electrical insulation failure within the tool.

The power supply for this products charger should be protected by a residual current device (RCD) rated at 30mA or less. A residual current device reduces the risk of electric shock.

BLOWER SAFETY WARNINGS

• Always wear adequate protective clothing when operating the blower to avoid injuries to face, eyes, hands, feet, head or hearing. Use safety glasses or a face shield, high boots or sturdy shoes, long trousers, work gloves, a hard hat and ear defenders.

• Do not start the tool when it is upside down or when it is not in the operating position.

• Switch the motor off and remove the battery when the tool is not being used, left unattended, being cleared or being moved from one place to another.

• Do not operate the tool near people, especially children or pets. Turn it off if they get too close. Maintain a safe distance of at least 5m from other people when using the tool.

• Never direct the blower direction nozzle towards bystanders or pets. Never blow debris in the direction of bystanders or pets.

• The operator is responsible for accidents or hazards occurring to others or their property.

• Do not handle the battery or the tool with wet hands and do not use the tool in the rain.

• Keep all the air intakes and the blower tube free of dust, lint, hair and other material that may cause a reduction in air flow.

• Keep a balanced and stable stance while using the tool. Do not switch on the tool in enclosed or poorly ventilated spaces or in the presence of inflammable and/or explosive substances such as liquids, gasses and powders.

• Do not get distracted and always concentrate on what you are doing. Use common sense. Never operate the tool when you are tired, sick or under the influence of alcohol or other drugs.

• Ensure the blower tubes are not restricted or obstructed during use.

• Do not operate this appliance with long loose hair or loose fitting jewellery. Tie long loose hair back and remove loose fitting jewellery.

• Only operate the tool during broad daylight or with adequate artificial light.

• When the tool is not in use, store it in a dry place and out of reach of children.

• Only use the tool according to the instructions given in this manual.

• Check regularly that the screws are tight.

WARNING! When servicing, use only identical replacement parts. Use of any other parts may create a hazard or cause product damage. To ensure safety and reliability, all repairs should be performed by a qualified service technician.

WARNING! This appliance is not intended for use by young or infirm persons unless supervised by a responsible person to ensure that they can use the appliance safely. Young children should be supervised to ensure that they do not play with the appliance.
BATTERY SAFETY WARNINGS

1. Before using the charger read all instructions and cautionary markings on the charger, battery pack and the product using the battery pack.

2. This charger is not intended for any use other than charging Ozito Power X Change rechargeable batteries. Any other use may result in fire, electric shock or electrocution.

3. Do not place any object on top of the charger or place the charger on a soft surface that may result in excessive internal heat. Place the charger in position away from any heat source.

4. To reduce risk of damage to the electric plug and cord, pull by the plug rather than the cord when disconnecting the charger.

5. Make sure the cord is located so that it will not be stepped on, tripped over, or otherwise subjected to damage or stress.

6. An extension cord should not be used unless absolutely necessary. Use of an improper extension cord could result in the risk of fire, electric shock or electrocution.

7. Do not operate the charger if it has received a sharp blow, been dropped or otherwise damaged in any way. Have it checked by an electrician or power tool repairer.

8. Do not disassemble charger. Take it to an electrician or power tool repairer when service or repair is required. Incorrect reassembly may result in a risk of electric shock, electrocution or fire.

9. To reduce risk of electric shock, unplug the charger from the outlet before attempting any cleaning. Removing the battery pack will not reduce this risk.

10. Never attempt to connect 2 chargers together.

11. The charger is designed to operate on standard household electrical power (240 volts). Do not attempt to use it on any other voltage!

12. The battery pack is not fully charged out of the carton. First read the safety instructions and then follow the charging notes and procedures.

13. DO NOT STORE OR USE the battery pack in locations where the temperature may reach below 0ºC or exceed 50ºC (such as inside sheds or metal buildings in summer). This is important and will prevent damage to the battery pack.

14. Do not incinerate the battery pack even if it is seriously damaged or is completely worn out. The battery pack can explode in a fire.

15. Never attempt to open the battery pack for any reason. If the plastic housing of the battery pack breaks or cracks, immediately discontinue use and do not recharge.

16. During charging, the battery must be placed in a well-ventilated area.

ELECTRICAL SAFETY

WARNING! When using mains-powered tools, basic safety precautions, including the following, should always be followed to reduce the risk of fire, electric shock, personal injury and material damage.

Read the whole manual carefully and make sure you know how to switch the tool off in an emergency, before operating the tool.

Save these instructions and other documents supplied with this tool for future reference.

Note: The supply of 230V and 240V on Ozito tools are interchangeable for Australia and New Zealand.

This tool's charger is double insulated, therefore no earth wire is required.

If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid hazard.

Note: Double insulation does not take the place of normal safety precautions when operating this tool. The insulation system is for added protection against injury resulting from a possible electrical insulation failure within the tool.

Using an Extension Lead

Always use an approved extension lead suitable for the power input of this tool. Before use, inspect the extension lead for signs of damage, wear and ageing. Replace the extension lead if damaged or defective.

When using an extension lead on a reel, always unwind the lead completely. Use of an extension lead not suitable for the power input of the tool or which is damaged or defective may result in a risk of fire and electric shock.

To reduce the risk of electric shock, we recommend the use of a residual current device (rated 30mA or less).

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Children should be supervised to ensure that they do not play with the appliance.
1. OPERATION

Only use the battery pack with Ozito Power X Change 18V cordless products.

CHARGING YOUR LITHIUM ION BATTERY

This battery has been shipped in a low charge condition, and requires charging prior to use. Allow several cycles of charging and discharging (through use with a compatible tool) for the battery to reach its optimum performance / runtime.

This battery is compatible with chargers from the 18V Ozito Power X Change range available through your local Bunnings Warehouse. Product availability may differ.

1. Insert the power plug of the charger into the mains socket outlet. The green LED will begin to flash when properly connected to power supply.
2. Insert the battery pack into the battery charger.
3. Remove battery from the charger once fully charged. Disconnect the charger from the power supply.

Note: The battery pack can become a little warm during the charging. This is normal.

If the battery pack fails to charge, check:
   - if there is voltage at the socket outlet
   - that the battery and charger are properly connected.

If the battery pack still fails to charge, please contact our customer service center.

BATTERY CHARGE INDICATOR

The purchased battery is equipped with a battery charge indicator to show the state of the battery charge.
Press the charge indicator button and look to see which LED lights.

<table>
<thead>
<tr>
<th>LED Lights</th>
<th>State of Charge</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Battery requires immediate charging</td>
</tr>
<tr>
<td></td>
<td>Low state of charge, requires charging soon.</td>
</tr>
<tr>
<td></td>
<td>Mid state of charge</td>
</tr>
<tr>
<td></td>
<td>Full state of charge</td>
</tr>
</tbody>
</table>

Note: The battery needs to be removed from the tool to check the state of charge.

BATTERY PROTECTION SYSTEM

The tool is equipped with a battery protection system, which helps to ensure longevity of the battery.

The output power automatically cuts off during operation when the tool and/or battery are placed under the following situations:

- When the tool is overloaded:
  If this occurs, release the trigger switch and remove causes of overload, then pull the switch trigger again to restart.
- When the remaining battery capacity becomes low:
  Recharge the battery pack.

Note: The battery protection system does not in any way damage the tool.

Note: The indicated capacity may be lower than the actual level during use or immediately after using the tool.

WARRANTY

IN ORDER TO MAKE A CLAIM UNDER THIS WARRANTY YOU MUST RETURN THE PRODUCT TO YOUR NEAREST BUNNINGS WAREHOUSE WITH YOUR BUNNINGS REGISTER RECEIPT. PRIOR TO RETURNING YOUR PRODUCT FOR WARRANTY PLEASE TELEPHONE OUR CUSTOMER SERVICE HELPLINE:

Australia 1800 069 486
New Zealand 0508 069 486

TO ENSURE A SPEEDY RESPONSE PLEASE HAVE THE MODEL NUMBER AND DATE OF PURCHASE AVAILABLE. A CUSTOMER SERVICE REPRESENTATIVE WILL TAKE YOUR CALL AND ANSWER ANY QUESTIONS YOU MAY HAVE RELATING TO THE WARRANTY POLICY OR PROCEDURE.

The benefits provided under this warranty are in addition to other rights and remedies which are available to you at law.

Our goods come with guarantees that cannot be excluded at law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Generally you will be responsible for all costs associated with a claim under this warranty, however, where you have suffered any additional direct loss as a result of a defective product you may be able to claim such expenses by contacting our customer service helpline above.

36 MONTH REPLACEMENT WARRANTY

Your product is guaranteed for a period of 36 months from the original date of purchase and is intended for DIY (Do It Yourself) use only. If a product is defective it will be replaced in accordance with the terms of this warranty. Warranty excludes consumable parts.

WARNING

The following actions will result in the warranty being void.

- If the tool has been operated on a supply voltage other than that specified on the tool.
- If the tool shows signs of damage or defects caused by or resulting from abuse, accidents or alterations.
- Failure to perform maintenance as set out within the instruction manual.
- If the tool is disassembled or tampered with in any way.

ELECTRICAL SAFETY

WARNING! When using mains-powered tools, basic safety precautions, including the following, should always be followed to reduce risk of fire, electric shock, personal injury and material damage.

Read the whole manual carefully and make sure you know how to switch the tool off in an emergency, before operating the tool.

Save these instructions and other documents supplied with this tool for future reference.

Note: The supply of 230V and 240V on Ozito tools are interchangeable for Australia and New Zealand.

This charger is double insulated therefore no earth wire is required.

If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid hazard.

Note: Double insulation does not take the place of normal safety precautions when operating this tool. The insulation system is for added protection against injury resulting from a possible electrical insulation failure within the tool.

Using an Extension Lead

Always use an approved extension lead suitable for the power input of this tool. Before use, inspect the extension lead for signs of damage, wear and ageing. Replace the extension lead if damaged or defective.

When using an extension lead on a reel, always unwind the lead completely. Use of an extension lead not suitable for the power input of the tool or which is damaged or defective may result in a risk of fire and electric shock.

To reduce the risk of electric shock, we recommend the use of a residual current device (rated 30mA or less).

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.

CHARGER SAFETY WARNINGS

THIS MANUAL CONTAINS IMPORTANT SAFETY AND OPERATING INSTRUCTIONS FOR YOUR CHARGER.

1. Before using the charger read all instructions and cautionary markings on the charger, battery pack and the product using the battery pack.
2. This charger is not intended for any use other than charging Ozito Power X Change rechargeable batteries. Any other use may result in risk of fire, electric shock or electrocution.
3. Do not place any object on top of the charger or place the charger on a soft surface that may result in excessive internal heat. Place the charger in a position away from any heat source.
4. To reduce risk of damage to the electric plug and cord, pull by the plug rather than the cord when disconnecting the charger.
5. Make sure the cord is located so that it will not be stepped on, tripped over, or otherwise subjected to damage or stress.
6. An extension cord should not be used unless absolutely necessary. Use of an improper extension cord could result in the risk of fire, electric shock or electrocution.
7. Do not operate the charger if it has received a sharp blow, been dropped or otherwise damaged in any way. Have it checked by an electrician or power tool repairer.
8. Do not disassemble charger. Take it to an electrician or power tool repairer when service or repair is required. Incorrect reassembly may result in a risk of electric shock, electrocution or fire.
9. To reduce risk of electric shock, unplug the charger from the outlet before attempting any cleaning. Removing the battery pack will not reduce this risk.
10. Never attempt to connect 2 chargers together.
11. The charger is designed to operate on standard household electrical power (240 volts). Do not attempt to use it on any other voltage!
12. DO NOT USE the charger where the temperature may reach below 0° or exceed 40°C. If the battery pack is too hot or too cold charging will cease and begin automatically only when battery reaches correct charging temperature.
13. Do not incinerate the battery pack even if it is seriously damaged or is completely worn out. The battery can explode in a fire.
14. Never attempt to open the battery pack for any reason. If the plastic housing of the battery pack breaks or cracks, immediately discontinue use and do not recharge.
15. During charging, the battery must be placed in a well ventilated area.

Power tools that are no longer usable should not be disposed of with household waste but in an environmentally friendly way. Please recycle where facilities exist.

Check with your local council authority for recycling advice.
1. CHARGING A BATTERY

**Charger LED Indicator Lights**

<table>
<thead>
<tr>
<th>LED Indicator</th>
<th>Situation</th>
</tr>
</thead>
<tbody>
<tr>
<td>GREEN (Flashing)</td>
<td>Stand By (no battery pack is inserted)</td>
</tr>
<tr>
<td>RED (Flashing)</td>
<td>Battery is charging (low charge)</td>
</tr>
<tr>
<td>RED (Illuminated)</td>
<td>Battery is fast charging (mid charge)</td>
</tr>
<tr>
<td>GREEN (Illuminated)</td>
<td>Battery is fully charged and is ready for use. Refer to charging times to ensure the battery is fully charged.</td>
</tr>
<tr>
<td>BOTH (Illuminated)</td>
<td>Battery pack is too hot or too cold (charging will begin automatically when battery reaches correct charging temperature).</td>
</tr>
<tr>
<td>BOTH (Flashing)</td>
<td>The battery is defective, charging is no longer possible. Do not charge. Contact Ozito Customer Service.</td>
</tr>
</tbody>
</table>

**Charging Process**

1. Place the charger on a flat surface then connect the charger into a mains power outlet.

2. The charger LED will flash green showing power is being supplied to the charger.

3. Align and then slide the ribs on the battery into the recess in the charger.

4. The red LED will illuminate while the battery charges.

5. The green LED will illuminate once the battery is fully charged.

**CAUTION:** THE CHARGER SHOULD BE PROTECTED BY A RESIDUAL CURRENT DEVICE (RATED AT 30MA OR LESS).

**Mounting The Charging Unit On A Wall**

The charging unit can be mounted to a wall or workbench. The correct dimensions for drill holes can be found on the back of the charging unit; a template for the mounting hole locations can also be found on the Ozito website.

**Note:** When mounting on a wall you must use suitable screws, e.g. M3 pan-head screws, in order to prevent damage to the housing and risk of falling.

2. MAINTENANCE

- Disconnect the charger from power source before cleaning.
- Keep the charger in a dry place out of reach of children.
- If the enclosure of the charger requires cleaning, do not use solvents. Use a dry, soft cloth only to wipe down the surface. Never let any liquid get inside the charger; never immerse any part of the charger.
- There are no other parts inside the charger which require maintenance. Do not take the charger apart. If the charger is damaged, contact your supplier or the manufacturer.

**WARRANTY**

IN ORDER TO MAKE A CLAIM UNDER THIS WARRANTY YOU MUST RETURN THE PRODUCT TO YOUR NEAREST BUNNINGS WAREHOUSE WITH YOUR BUNNINGS REGISTER RECEIPT. PRIOR TO RETURNING YOUR PRODUCT FOR WARRANTY PLEASE TELEPHONE OUR CUSTOMER SERVICE HELPLINE:

Australia 1800 069 486
New Zealand 0508 069 486

TO ENSURE A SPEEDY RESPONSE PLEASE HAVE THE MODEL NUMBER AND DATE OF PURCHASE AVAILABLE. A CUSTOMER SERVICE REPRESENTATIVE WILL TAKE YOUR CALL AND ANSWER ANY QUESTIONS YOU MAY HAVE RELATING TO THE WARRANTY POLICY OR PROCEDURE.

The benefits provided under this warranty are in addition to other rights and remedies which are available to you at law. Our goods come with guarantees that cannot be excluded at law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Generally you will be responsible for all costs associated with a claim under this warranty, however, where you have suffered any additional direct loss as a result of a defective product you may be able to claim such expenses by contacting our customer service helpline above.

**36 MONTH REPLACEMENT WARRANTY**

Your product is guaranteed for a period of **36 months from the original date of purchase** and is intended for DIY (Do It Yourself) use only. If a product is defective it will be replaced in accordance with the terms of this warranty. Warranty excludes consumable parts.

**WARNING**

The following actions will result in the warranty being void.

- If the tool has been operated on a supply voltage other than that specified on the tool.
- If the tool shows signs of damage or defects caused by or resulting from abuse, accidents or alterations.
- Failure to perform maintenance as set out within the instruction manual.
- If the tool is disassembled or tampered with in any way.
