Water Volumising Effect™

The unmistakable feeling of 300,000 droplets per second only from Satinjet

CONVENTIONAL
SHOWER SPRAY

SATINJET
SHOWER SPRAY

SATINJET®

We love showers, but we didn't love the experience that showers were giving us, painful streams of water, cold zones and poor coverage, a disappointing experience overall. So we went about designing our own shower, something with great coverage, fantastic warmth and saturation. We wanted to design the perfect shower experience, after all it's a big part of our lives morning or night, to awaken or to relax.

After hundreds of hours of showering, testing, listening and watching we created Satinjet, a shower so special we even named the effect it has by calling it 'Water Volumising'. How does it work? Easy, two jets of water collide which creates thousands of droplets, we even counted the droplets, 300,000 per second, that's a lot of droplets covering your body, and that's what gives you that luxurious sensation on the skin, incredibly simple yet wonderfully perfect.

Nui Satinjet® Rail Shower

Ultra Wide Spray
Massage & Body Shower functions
Adjustable wall brackets
Smooth hose for easy cleaning
Suitable for all pressures

METHVEN

Originating in
New Zealand over
125 years ago

Life-enhancing shower experiences. That's what Methven is all about, and we've been providing them for a very long time. Our story began in New Zealand in 1886, as a producer of brass and iron hardware. Today, Methven is New Zealand's largest supplier and a leading designer of distinctive showerware, tapware and hot-water valves to home renovators, plumbers and the construction industry

All Methven branded products are now offered with a 20-year* warranty on domestic/residential installations. For full terms and conditions check our website.
