# "YOU WON'T MISS THE ITCH!"

BY MAKING THE SWITCH TO EARTHWOOL® GLASSWOOL INSULATION

## Can insulation really feel THIS good?

The Earthwool glasswool insulation range of products don't look or feel like any insulation you've ever experienced, that's because the natural brown colour represents a level of sustainability and ease of handling never before achieved with glasswool in New Zealand. The colour and super-soft feel of this glasswool comes from a revolutionary sustainable binder which does not contain the petro-based chemicals, added formaldehyde or artificial colours commonly used in other glasswool insulation.

## EARTHWOOL® GLASSWOOL

*the feel good glasswool insulation*

### Not as itchy

The super-soft feel of Earthwool glasswool insulation comes from a revolutionary, patented binder based on rapidly renewable materials.  
**Make the switch!**

### Indoor air comfort

With no added formaldehyde, Earthwool glasswool insulation contributes to high indoor air comfort.

### Reduced handling

Unique compression packaging means more insulation per pack, more insulation per load.

### Fire safe

Earthwool glasswool insulation is non-combustible.

### Blocks sound

Earthwool glasswool insulation absorbs sound for a quieter home.

### Made using recycled glass

Earthwool glasswool insulation is made using recycled glass bottles and sand making it a great choice for environmentally conscious customers.
