Full control from smart device with Hue bridge

- Requires a Philips Hue bridge

PHILIPS

Specially designed for your outdoors

- Special light for special occasions
- Paint your outdoors with 16 million colors
- Power supply and plug included

Highlights

Warm to cool white light

Extend your evenings with Philips Hue outdoor lighting. Set the right ambiance on your patio, balcony or porch and relax. From the warm white light of a summer sun, to the ice cool daylight of winter: you can enjoy any shade of white light to fit your mood throughout the year.

Welcome you home

Experience the comfort of your lights turning on automatically when you arrive and turning off when you leave. Unpack your car, enter your house, all with the comfort of the right light. Just set the Hue app to Home or Away mode to switch on all your lights, or let geolocation do it for you, all without touching a button. It's as easy as that.

Smart control, home and away

Light up your outdoors and see what's going on outside. By connecting your outdoor lights with the Hue Bridge you can control them in any way you like. With our indoor remote control options such as the Philips Hue app or using your voice (Amazon Alexa, Apple HomeKit or Google Assistant) you can control your outdoor lights. You can set light schedules to mimic your presence. Control your outdoor lighting from the comfort of your home or from any other location.

Diffuse light effect

The Philips Hue Lightstrip Outdoor offers perfect diffused light for direct and indirect lighting solutions. Thanks to the diffuse coating you do not need to hide the lightstrip from plain sight; the light is mixed inside the strip emitting one uniform color on the outside.

Flexible installation

Easily bend and shape the Philips Hue Lightstrip Outdoor for your application. Place it into the ground to highlight your pathway, or apply it with the included clips and screws to any surface for ceiling or wall lighting; possibilities are endless.

Weather-proof

The Philips Hue Lightstrip Outdoor is fully weatherproof, meaning it can withstand all weather conditions. The lightstrip can withstand small puddles of water and jets of water from any direction, so no worries when there is unfortunate rain forecasted!

Requires a Philips Hue bridge

Connect your Philips Hue lights with the Bridge to control your lights from your smart phone or tablet via the Philips Hue app. Or control your Philips Hue lights with the Philips Hue dimmer indoor switch for on/off and dimming functionalities.

Special occasions

Family or friends coming over? Set your outdoor lights to match the occasion. Whether it's a cozy dinner on the balcony, a BBQ on the patio or party in the backyard, you can add a touch of magic to every get-together with Philips Hue. Create colorful scenes or slow-moving dynamic effects to enjoy these special moments to the fullest.

Paint your outdoors

With Philips Hue outdoor lighting there's no limit to the magic you can add. Play with 16 million colors and all shades of white light to create the effect you want. Highlight objects, trees or pathways to make your space stand out. Use the Hue app to save your favorite light settings and recall them whenever you want with the tap of a finger.

Power supply and plug included

The base unit packs come with all elements you need to get started, this includes light points, power supply, extension cables and connectors. So all you have to do is unpack, install where you like and turn them on.
