Arlec New Zealand Limited		In New Zealand c/o Staples Rodway Chartered Accountants Level 9 Tower Centre 45 Queen St Auckland 1010 New Zealand	
New Zealand Company Number (if applicable)		In Australia Head Office 31-41 Joseph Street Blackburn North Vic 3130 Australia	
3757938			
Telephone	Fax	Email address	
+613 99825000	+613 99825199	mnimmervoll@arlec.com.au	
Medium Risk Article – Details³ (Product name, type, rating, brand, model, batch numbers, and serial numbers, as applicable)			
Cat No CSF3060 - Ceiling Sweep fan 6 blade, wall control “Zenta” or “Arlec” brand			
Rated 230-240V a.c. 50Hz 50W Class I lamp E27 60W max			
Supplied with CFR351 remote control (or CFR353 in series 2 marked version)			
The Medium Risk Article, listed above, fully complies with the cited standard(s), as listed:-			
Standard number & issue year:- AS/NZS 60335.2.80 : 2004		Standard number & issue year:- AS/NZS 60598.2.1 : 1998	
Standard Title:- Household and similar electrical appliances - Safety - - Particular requirements for fans		Standard Title:- Luminaires - Particular requirements - Fixed general purpose luminaires	
Edition / Amendment status:- 2004 + A1	AS/NZS ZZ modified Y / N / NA	Edition / Amendment status:- 1998	AS/NZS ZZ modified Y / N / NA
Or complies with the Conformity Cooperation Agreement - Yes / No (Delete as applicable)			
Names and addresses of any testing organisation or body			
Name(s)		Address(es)	
UL International NZ		21 Tarndale Grove Albany Auckland 0632 New Zealand	
Reference to relevant test reports/certification, and issue date of the reports/certification, that show how compliance is achieved:-			
Standard(s) or document(s) used, to show how compliance with cited standard is achieved:-	Report/Certification or Document reference N°(s):-	Issue date(s)	
Approval certificate – UL International NZ	U20335EA	29 May 2012	
Test Reports – UL International NZ	11CA55419-SA00 11CA55419-SB00	25 May 2012	
Reference to any management systems involved:- Company quality system to ISO9001:2008, Certified SAI Global QEC3775			
Additional ⁴ information: Routine inspection carried out by Aero-ton who hold inspection records			
Declaration			
I hereby declare that the above specified fittings or electrical appliances comply with the requirements of Regulation 83 of the Electricity (Safety) Regulations 2010		Signed for and on behalf of: Arlec New Zealand Limited	
Issuer Identification: N264 (as affixed to the article). 		Name⁵ & position, as authorized by the issuer	
		Michael Nimmervoll Product Engineering & Design Manager	
		Signature	Date
			8 Dec 2013

¹ Every declaration of conformity should be uniquely identified.

² The responsible issuer must be unequivocally specified.

³ The “Article” must be unequivocally described so that the declaration of conformity may be related to the article in question. For mass-produced products, it is not necessary to give individual serial numbers. Where variants of an article are to be covered, these must be detailed.

⁴ Text should appear here only if any limitation on the validity of the declaration of conformity and/or any additional information are given.

⁵ Full name and function of the signing person(s) authorised by the issuer’s management to sign on its behalf should be given. The number of signatures, or equivalent, included will be the minimum determined by the legal form of the issuer’s organization.

Continuing validity of the declaration of conformity

The issuer of the declaration of conformity shall have procedures in place to ensure the continued conformity of the medium risk article, as delivered or accepted, with the stated requirements of the declaration of conformity.

The issuer of the declaration of conformity shall have procedures in place to re-evaluate the validity of the declaration of conformity, in the event of:-

- a) changes significantly affecting the article design or specification,
- b) changes to the standards which conformity of the article is stated,
- c) changes in the ownership or structure of management of the supplier,
- d) if relevant, or relevant information indicating that the article may no longer conform to the specified requirements.

Additional information regarding the declaration

“Issuer Identification” as affixed to the article:- this marking should identify the issuer of the SDoC and may be for example in the form of a NZ GST N°, NZ Company N°, Unique NZ brand name or trademark, or SCN issued by Radio Spectrum Management (this number can be used, even if a C-tick is not required for the article), etc. Failure to mark a product with such unique identification may result in the issuer being held responsible for compliance of an article that may not have been supplied by the issuer, unless the issuer can prove otherwise! This is particularly relevant where the same or very similar model is or may be imported or manufactured, by other NZ suppliers.

A copy of the SDoC and test report(s) (certification) and/or other supporting compliance documentation must be available, if the supporting compliance documentation is not available directly from issuer, the name and address of from where it can be obtained from, must be provided by any supplier within the New Zealand supply chain. (Note: A copy of the SDoC and supporting documentation must be available within 10 working days after being asked to do so, by Energy Safety, a purchaser, or other consumer, of the article declared).

A person who sells or offers for sale, a declared medium risk article commits an offence, if at the time of sale or offer to sell, a valid declaration of conformity for the article has not been made, or the person cannot provide a copy of the declaration of conformity, along with the required supporting documentation, within the timeframe allowed. Penalties associated with a grade A offence are fines, not exceeding \$10,000 for an individual or \$50,000 for a body corporate (company) if successfully prosecuted, or a fixed infringement fee, of \$1,000 for an individual or \$3,000 for a body corporate (company).

Listings of the current regulatory definitions for electrical equipment deemed to be medium risk articles, can be found at: http://www.energysafety.govt.nz/templates/MultipageDocumentTOC_24889.aspx within the Energy Safety website: <http://www.energysafety.govt.nz>

This form can be edited to increase any text box size, in order to insert more detail, than the current space allows, if required.

This is an example ISO/IEC 17050-1 form for a recognised declaration of conformity; any other form complying with the requirements of ISO/IEC 17050-1:2004, may be used instead, for the purpose of Electricity Regulation 83.

Nothing prevents this form being extended to act as an SDoC, for other regulatory purposes.

**THIS COMPLETED FORM REMAINS WITH THE ISSUER AS PART OF THE DOCUMENTATION
REQUIRED AS EVIDENCE OF COMPLIANCE
DO NOT SUBMIT A COPY OF THIS FORM TO ENERGY SAFETY, UNLESS SPECIFICALLY
REQUESTED TO DO SO**
