

C-thru

Water Spot Remover

Safely Removes Difficult Water Spots and Stains

- Mineral deposits (calcium, lime, silica, etc)
- Ceramic cook top / oven door stains
- Soap scum
- Rust marks
- Water spots on vehicle glass
- Other organic stains

Very Effective on a Wide Range of Hard Surfaces

- Shower glass (makes a stained shower look like new again)
- Glass windows on vehicles, building / homes, boats and other equipment
- Glass and stainless steel balustrades
- Stainless steel sinks, shower trays, tap ware and railings
- Ceramic and porcelain tiles, sinks and bathroom fixtures
- Ceramic cook tops and oven glass
- Chrome tapware and fittings

Safe to Use & Non-toxic

- Safe on your skin
- Safe on the environment
- Septic tank safe
- Safe to use on tinted glass

Guaranteed to Work

Money back guarantee if it doesn't work!

New Zealand Made

Developed for our conditions - made by Kiwis for Kiwis

C-thru

Shower Shield

Prevents water spots and stains, soap scum and other residue from bonding to:

- Shower glass
- Shower linings (tiles, acrylic, fibreglass)
- Glass windows on vehicles, buildings / homes, boats, and other equipment
- Glass and stainless steel balustrades
- Stainless steel shower trays, tap ware and railings
- Ceramic and porcelain tiles and sinks
- Chrome tapware and fittings
- Other hard surfaces

Keeps surfaces clean longer

Repels water, grime and minerals

Makes cleaning easier

Spots and stains don't bond to the surface

Guaranteed to Work

Money back guarantee if it doesn't work!

"I thought I would let you know that I am absolutely thrilled with your products. I have cleaned some showers in my time and I have used just about every product going, attempting to get rid of and keep glass build-up at bay. All others have failed and not lived up to all the promises!

I use the C-thru Water Spot Remover and Shower Shield and the results are brilliant. And I don't have to clean the glass every time the shower is used anymore!"

C. Johnson, Orewa
