# WHY SENTRY?

## ■ SUPERIOR NZ MADE QUALITY

When you invest in a Sentry shed by Duratuf, you are investing in a New Zealand made quality product that you can rely on. Manufactured on home turf means your shed will possibly stay sitting there for that much longer. Further to that, only the best of materials are used from NZ grown timber through to premium hi-tensile steel and quality fastenings.

Keeping Kiwis in jobs plays an important role in our community and gives the added assurance of controlled quality during manufacture, coupled with a locally backed warranty - we'll be here if you need us!

NEW ZEALAND  
MADE

## ■ STRONGER SEMI-TIMBER FRAME CONSTRUCTION

The Sentry shed has a unique easy-to-build panel assembly system using timber top & bottom plates. This provides extra strength and rigidity and is superior in strength and versatility to other non-timber reinforced sheds.

All timber is sourced locally in NZ and treated to H4 standards for all areas where there may be ground contact.

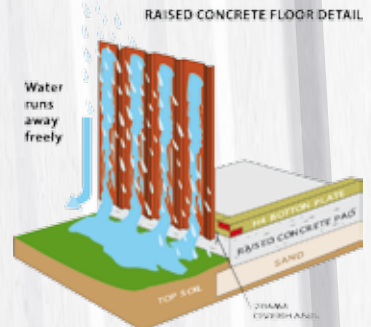

With a timber base plate, fixing the shed down is a dream, and now with a roof securely attached to the top frame using galvanised sealed nails, it's not going to blow away in the first puff of wind either.

## ■ ADVANCED WATER RUN OFF

As with all buildings, it is important that water flows away from your garden shed. Trapped water can potentially allow water ingress and then ultimately, corrosion of the steel cladding. Unlike many other sheds, the Sentry Shed does not have steel channels at the base of the wall. This allows water to drain away unimpeded.

Further to this, when mounting your Sentry Shed on a raised concrete floor pad, the assembly can be done in such a way that the steel wall sheets overlap the concrete floor for ultimate weather proofing.

## ■ EASY TIMBER FLOOR KITS

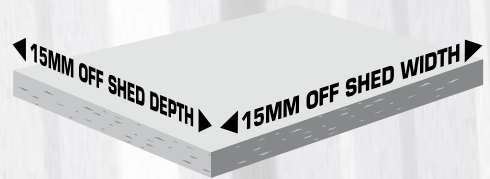

Optional timber floor kits are a good way to create a clean, dry platform up off the ground for storing your valuable gear on. Sentry floor kits work differently to most other garden shed floors. The floor is fixed inside the shed on the timber bottom plate, creating a strong base for the shed.

The Sentry floor kit contains all the materials that you will need including H4 ground treated joists and floorboards (cut to size) as well as the hardware required.

## ■ POURING A CONCRETE FLOOR?

Should you wish to build your shed so that the steel wall cladding overlaps the concrete base, we suggest your pad should be poured 15mm smaller than the base size of the shed.

This will enable sufficient clearance between the wall cladding and enable you to create a water tight shed.

## ■ ANTI-RUST STEEL CLADDING

Durafuf Sentry sheds feature a hi-tensile, deep ribbed 0.30 gauge steel cladding. Formed right here in New Zealand, it is available in a classic, non-rust, Zinc/Aluminium finish or your choice of three popular colour steel options. (See below)

For your further peace of mind, the Sentry Shed is backed up by a full 20 year warranty on all steel cladding. (Conditions apply)

# Locker

The Duratuf Sentry Locker is an ideal hideaway for your small items. With a wall height of 1800mm it will stand no higher than a standard boundary fence. A great little compact shed designed to fit into those small areas where space is at a premium.

## SL 1507

BASE SIZE	1.52 X 0.68m (4 ft 11 X 2 ft 2 in)

# Skillion Roof

## SS 2010

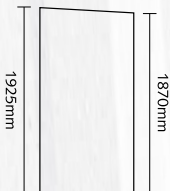

<b>BASE SIZE</b>	2.020 X 1.020 (6 ft 8 X 3 ft 5 in)	
<b>DOOR OPENING</b>	920 mm	
<b>SKU</b>	Zinc	232826
	Mist Green	232818
	Lichen	232823
	Karaka	232813
	Timber Floor Kit	232572
	Clear roof panel	232626

Shown in Lichen

## Against the house? Against the fence?

The Duratuf Sentry Skillion series has a roof that slopes to the front enabling it to sit hard against the wall. The perfect space saving solution for storing a large range of household items.

### Height Diagram

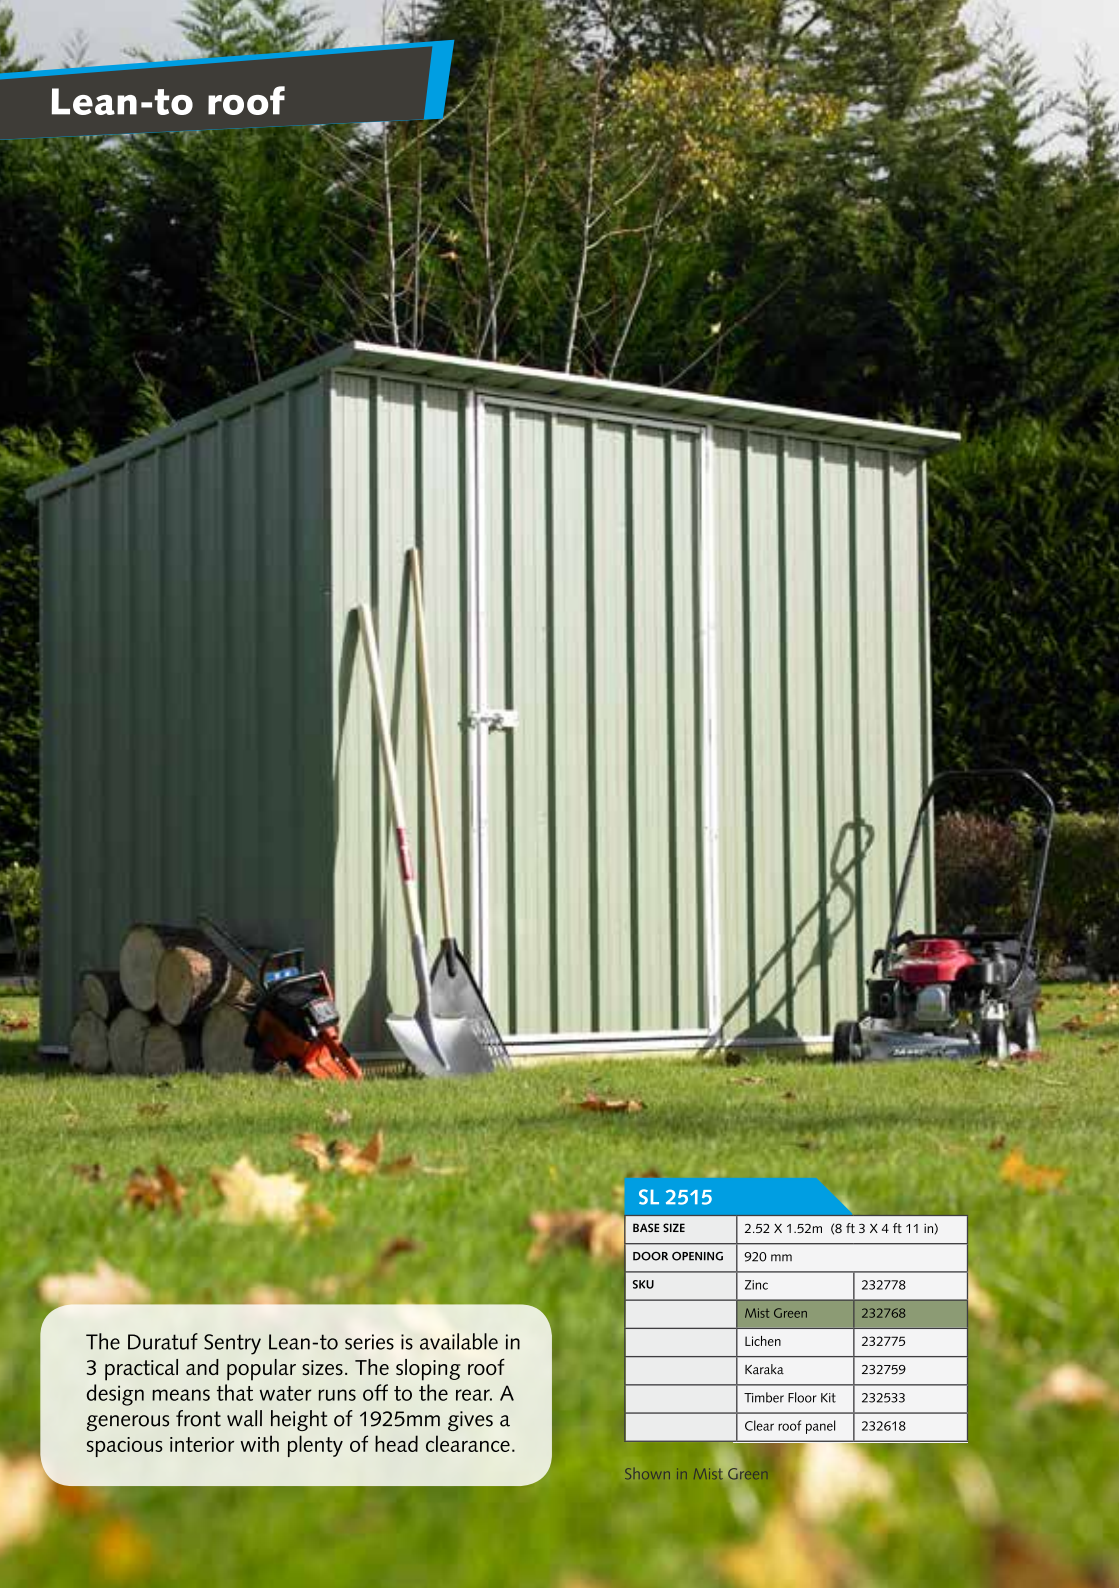

## SS 1510

<b>BASE SIZE</b>	1.52 X 1.02m (4 ft 11 X 3 ft 4 in)	
<b>DOOR OPENING</b>	920mm	
<b>SKU</b>	Zinc	232808
	Mist Green	232802

## Bigger and better...

The large Duratuf Sentry Gable sheds provide maximum storage capacity and the 3.0m models cater nicely for ride-on mower and quad bike access.

The unique '1 full door + a half door' system on the 3.0m series means they can be used as a single door shed if necessary, maximising the usable wall space.

# Accessories

## TIMBER FLOOR KIT

Pre cut 150 x 19 mm H3 treated boards. H4 Bearers. Nails included.

## PEG DOWN KIT

Used to anchor your Sentry shed down to sand or dirt substrates. Kit includes 6 x H5 pegs and stainless steel. Tools required; Sledge hammer and screwdriver.

SKU: 126277

## BOLT DOWN KIT

The Duratuf Bolt-down kit is used to mount your shed securely to a concrete base. Contains a unique bracket which tightly clamps the base plate to the concrete floor.

SKU: 126289

## BATTERY POWERED SHED ALARM

(Model DSA-MA20) *Intruders beware!*

- Ultra loud 130db alarm
- Easily attached to the timber framing
- Uses 4 x AA Batteries (not included)

## CLEAR ROOF PANEL

Clear roof panels provide UV free, natural daylight. Please note that clear panels may condensate more than steel.

## HEAVY DUTY WORK BENCH

Lock together construction with 250kg load rating per shelf. Size: 1.14m W x 0.50m D x 0.90m H.

SKU: 126311

## 5 TIER SHELF UNIT

Bolt free interlocking kitset. MDF shelves, 350kg load rating per shelf. Size: 0.90m W x 0.40m D x 1.80m high.

SKU: 126300

## SOLAR SHED LIGHT

Tested and proven to perform, the Duratuf Solar Shed Light is a must-have in the dark of night.

# Tools Required

Drill

Riveter

Tape measure

3.5mm Drill bit

Pen

Philips drill bit

Nail punch

Hammer

Step Ladder

Optional extras incur freight charges when ordered separately. Imperial dimensions are rounded and are as a guide only. Timber floor kits, where shown, are purchased as an optional extra.
