The Model BW2 Food Waste Disposer is ideal for households with a light food waste output. The food waste disposer grinds and liquefies food waste, then discharges it to the sewer or septic waste system through household plumbing.
The Model BW3 Food Waster Disposer is ideal for households with a medium food waste output. The food waste disposer grinds and liquefies food waste, then discharges it to the sewer or septic waste system through household plumbing.

**Features**

- 0.55 HP at 240V, 50Hz
- Grinds 1x
- 3 Year Guarantee
- Air Switch
- Born in the USA

**Includes**

- Plastic Stopper
- Quick-Lock™ Mounting System
- Stainless Steel Grind Components
- Powerful Induction Motor
- Watermark Certified

InSinkErator reserves the right to change product specifications without prior notice. The disposers described are for household use. Usage in commercial situations is not covered by warranty.
The Model BW4 Food Waste Disposer is ideal for households with a normal food waste output. The food waste disposer grinds and liquefies food waste, then discharges it to the sewer or septic waste system through household plumbing.

**FEATURES**
- .75 HP at 240V, 50Hz
- Grinds 1x
- 4 Year Guarantee
- Air Switch
- Born in the USA

**INCLUDES**
- Stainless Steel Stopper
- Quick-Lock™ Mounting System
- Stainless Steel Grind Components
- Powerful Induction Motor
- Watermark Certified

Featuring two-stage grinding combined with SoundSeal™ Plus technology, the Evolution 100 is more powerful and quieter than our standard range. It virtually grinds any food waste, including difficult items such as bones and potato peel.

**INCLUDES**

- **SOUNDSEAL PLUS™ TECHNOLOGY**
- **PREMIUM STAINLESS STEEL STRAINER & PLUG**
- **QUICK-LOCK™ MOUNTING SYSTEM**
- **STAINLESS STEEL GRIND COMPONENTS**
- **POWERFUL INDUCTION MOTOR**
- **WATERMARK CERTIFIED**

*InSinkErator reserves the right to change product specifications without prior notice. The disposers described are for household use. Usage in commercial situations is not covered by warranty.*
The Evolution 200 with its three stage grind technology & SoundSeal™ Plus, makes it our most powerful & quietest model. Don’t worry about what you can and can’t grind... the Evolution 200 grinds all food waste.
InSinkErator have a range of accessories for the Food Waste Disposers to customise the sink and colour match bench-tops.
InSinkErator food waste disposers are not only convenient and hygienic, but environmentally responsible too. That’s because when food waste goes down the disposer it’s not going to end up in a landfill site where it generates methane, a potent greenhouse gas. It’ll actually end up at a wastewater treatment plant. Modern wastewater plants throughout New Zealand capture the methane gas generated during processing and convert it to renewable energy in the form of heat and electricity. So as well as using minimal electricity and about 1% of an average home’s annual water consumption, a food waste disposer offers a compelling solution for responsible food waste management.

**SAFE ON THE SEPTIC**

InSinkErator food waste disposers have always been safe for properly sized septic systems. For example, if your system is sized for a dishwasher or clothes washer, it can handle a disposer. After all, a disposer uses only about as much water per day as one flush of a toilet.
