Introducing The Ultimate In Luxurious Storage...

Known as the ultimate Timber storage building, The Cedar Shed has been manufactured in New Zealand since 1987. The Cedar range of sheds offers beautiful looks along with outstanding quality that needless to say, is built into the Cedar clad design.

Nestled amongst the trees or hidden in the bush they provide a natural look that goes hand in hand with our beautiful country. A Cedar shed retains a distinguished appearance that lends a mark of quality to any home, and is an investment you won't regret.

WESTERN RED CEDAR..... WHY YOU'LL LOVE IT.

As one of the worlds most durable timbers, Cedar lasts for decades and even centuries in the harshest of environments. Light in weight, uniformly textured, straight-grained and containing no resin, Western Red Cedar is easy to work with, making it the ultimate choice in timber shed construction.

It's Beautiful - No man-made material can duplicate the depth of Western Red Cedar's natural luster. Western Red Cedar's rich grain and vibrant colour make it the best material for all applications where beauty is important. Of all woods, Cedar ranks at the top in it's ability to accept and maintain an attractive finish.

It's Strong - Western Red Cedar has excellent dimensional stability and endurance. This is an important characteristic in the cladding of our sheds. It lays flat and stays straight. The even grain and relatively consistent density make Western Red Cedar less likely to swell, warp, cup and twist than other more readily available timbers.

Long-Lasting - Cedar fibres contain natural oils called thujaplicins that act as natural preservatives, making the wood extremely long-lasting and assisting the wood to resist insect attack and decay. Properly finished and maintained, Western

Red Cedar ages gracefully and endures for many years. Many use our specially formulated Endurance Cedar Protectant to enhance the natural fibres and bring out the rich colours that lie within while extending the life of your new shed.

Non-Toxic - Western Red Cedar is non-toxic and requires no chemical treatment when used on the cladding of our Cedar sheds. Because it is rich in extractives that enhance durability, Cedar does not require harmful chemical treatments and is free of the pitch and resin found in other timbers, along with other additives such as arsenic. A safe option in your backyard!

Smells Great - Western Red Cedar is well known for its distinctive aroma. Over the course of time the wood retains its subtle aroma and the characteristic fragrance adds another dimension to the overall appeal of the Cedar storage sheds. This is one of little things that will impress you every time you are in or around your Cedar Shed.

SUPERIOR CONSTRUCTION.....MAKING IT LAST

Modular Assembly System - This system has been distinctive to Cedar sheds for over 30 years and is constructed from 45x45mm pre treated framing, clad with premium Canadian sourced Cedar weatherboards.

Building Paper - Each panel is lined with heavy duty building paper creating an ultra dry interior. Great for storing important documents and items that don't like moisture.

Stainless Steel Staples - These are used to fasten the Cedar weatherboards to the timber frame creating a structure that will last. Great for coastal areas and other harsh environments.

Robust Optional Floor - This is an option with any Cedar Shed purchased. The floor kit is precut in the factory and includes H4 treated joists and sturdy pine floor boards.

Features and Benefits

10 year warranty

Rustic or Contemporary
Your choice of shingle or colour steel roof.

High Quality Joinery
Residential grade aluminium window. Standard with selected models, optional on all.

Modular Panel Design
Pre-made panels make for quick and easy installation.

No Condensation
Fully lined with building paper. Keeps your gear moisture free.

Solid Treated Timber Frame
Makes easy fixing of shelves, workbenches and lining kits.

Lockable Resin Handle
No rusty pad-bolts or missing padlocks.

Solid Timber Door

“ It looks fantastic! And worth every cent. I will recommend it to anyone wanting that 'Touch of Class' in their back yard. ”
Well done!
A. Roest

Stainless Steel Hinges
Stainless steel pins mean no stiff hinges.

Anti Rust Stainless Fixings
Long-lasting. Perfect for coastal locations.

Waterproof!
PVC weather-strip provides a water tight floor.

* Your new shed is guaranteed against defective material and faulty workmanship for ten years from date of purchase. Terms and conditions apply. Full warranty details are sent with kit or can be requested from the distributor.

Hampshire

Base Dimension	1.800 x 1.200 x 2.150m
Length x Depth x Height	5ft 9in x 3ft 9in x 7ft
Door	855mm opening

The two skillion models provide great storage for properties where space is at a premium. Against the house or fence is an ideal spot for these sheds with a lean-to roof that directs the water away from the rear. Both the Hampshire and the Woodridge are wide enough for a lawn-mower or small BBQ.

Woodridge (not pictured)

Base Dimensions	2.400 x 1.200 x 2.150 m
Length x Depth x Height	7ft 9in x 3ft 9in x 7ft

Millbrook

Base Dimension	2.400 x 1.900 x 2.350m
Length x Depth x Height	7ft 9in x 6ft 2in x 7ft 7in
Door	855mm opening

The dimensions and conventional shape of the Millbrook places it in the "most popular size garden shed" category.

The Millbrook is a great all rounder. All your traditional garden gear will fit in here with ease.

Please note....chooks and other props are not included.

Here the Millbrook is shown featuring an optional fixed aluminum window. This option is available with any Cedar Shed within the range.

Not only does this provide a great light source, it makes the shed just that much more aesthetically pleasing.

Ferndale

Base Dimension	1.900 x 1.800 x 2.350m
Length x Depth x Height	6ft 2in x 5ft 9in x 7ft 7in
Door	855mm opening

The Ferndale is a square shaped shed that provides ample storage for smaller garden items.

The door in the gable end gives a unique look. Like all Cedar sheds, a window can be added as an optional extra if desired.

A great little shed and a complement to any backyard.

Sherwood

Base Dimension	1.900 x 2.400 x 2.350m
Length x Depth x Height	6ft 2in x 7ft 9in x 7ft 7in
Door	855mm opening

The Sherwood is shown here featuring the optional colour steel roof. This is an option that applies to the whole Cedar shed range.

Like the Ferndale, the Sherwood offers end access which is user friendly for the storage of items like bikes and other longer items.

This style will often fit snugly between a house and the fence making excellent use of space.

Astor

Base Dimension	2.400 x 1.900 x 2.350m
Length x Depth x Height	7ft 9in x 6ft 2in x 7ft 7in
Door	1710mm opening

This beauty is perfect for a bike shed. The same size as the 'Millbrook', but with double doors in the side making easy access for bikes and bigger items.

Lots of kids toys? Need a pool shed? Get an Astor!

Logan

Base Dimension	2.700 x 1.900 x 2.350m
Length x Depth x Height	8ft 9in x 6ft 2in x 7ft 7in
Door	855mm opening

The 'Logan' is another top seller and with the door in the centre of the long side, there is liberal work and storage space inside and room for a workbench too.

As pictured, the Logan comes standard with a fixed aluminum window, making it an attractive package.

Popular and practical best describes the Logan.

Montrose

Base Dimension	3.000 x 2.500 x 2.350m
Length x Depth x Height	9ft 8in x 8ft 2in x 7ft 7in
Door	855mm opening

The smaller of the two largest Cedar sheds, the Montrose is proving increasingly popular.

With a spacious 2.5m of depth, it can be used as a full sized workshop, or has enough room to almost completely clear out your garage. It can also be supplied with double doors.

Two windows, one fixed and one opening come as standard, ensuring plenty of natural light. You choose the position of the windows to suit.

Bentley

Base Dimension	3.600 x 2.500 x 2.350m
Length x Depth x Height	11ft 8in x 8ft 2in x 7ft 7in
Door	855mm opening

This is the flagship model.

Formally known as the "Super Shed" the Bentley is big enough to use as an office, studio or hobby room, yet still leaves enough space for a workbench and some storage as well.

Double doors are available as an option should you wish to store your ride-on mower or want better accessibility.

The Bentley ensures you won't be short on storage space. With a fixed and an opening aluminium window, there's plenty of natural light to work in.

Urban

Base Dimension	3.600 x 2.500 x 2.350m
Length x Depth x Height	11ft 8in x 8ft 2in x 7ft 7in
Door	810mm opening

- Home office
- Sleep-out
- Site Shed
- Studio
- Extra room
- Bach

Working from home and need an office? Or maybe an extra bedroom? The Urban Cedar Shed is the perfect solution for you.

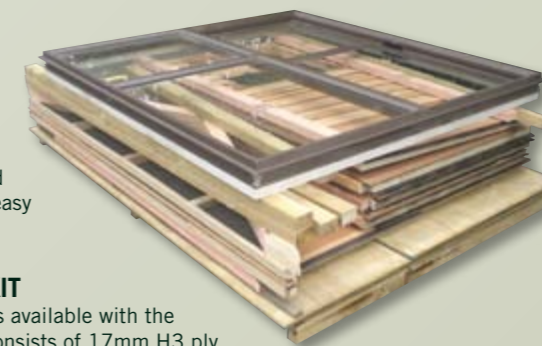

The urban is identical sizing to the Bentley but with the added advantage of a 1800mm wide ranch slider, making it light and airy.

As with all the Cedar shed range, the walls and roof come complete with building paper making it dry and also easy to fit a lining kit. One opening window is included for extra ventilation.

Please note: The shingle roof option is not available in the Urban

KITSET PACK

The Urban can be shipped anywhere in New Zealand. The flat packed kitset will arrive as shown above, wrapped securely to pallet for easy transportation.

OPTIONAL FLOOR KIT

A sturdy floor option is available with the Urban. The floor kit consists of 17mm H3 ply on 100 x 50 H3.2 joists.

OPTIONAL VERANDAH & DECK KIT

Enhance the appeal and practicality of your Urban Cabin with the Verandah and Deck Kit. It looks great and protects you from the elements.

This kit can be purchased as the deck only, or the deck and verandah combination.

REAR VIEW

Featuring the opening window that is standard with the Urban.

ROOF OPTIONS

The Cedar Shed range is unique for its ability to adapt to 2 different roof styles.

Choose your roof from the luxurious looking, popular Cedar shingles, or enjoy the economical option of Karaka colour steel.

See pricelist for details.

TIMBER FLOOR OPTIONS

The optional timber floor kit is a great solution for the base of your Cedar Shed.

Timber floors are both economical, easy to build and mean your shed will be easily relocatable.

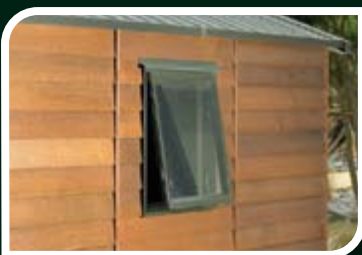

SHELF UNIT

MDF shelf unit with brackets.
300mm wide.
Available in the following lengths:
1200mm, 1800mm and 2400mm

WORKBENCH

MDF workbench 1800mm x 600mm
with sturdy timber framing.

FIXED OR OPENING WINDOW

Add light and ventilation to your Cedar Shed with a fixed and/or opening window.

While residential grade windows are optional with any Cedar Shed, all sheds in the range from the Logan up include windows as standard.

See pricelist for details.

WALL & ROOF PROTECTANT

Enhance and prolong the great look of your Cedar Shed with the Endurance Cedar Protectant especially formulated for Cedar.

See pricelist for details.
