# EASY SCREEN

## PRODUCT GUIDE

MAKE IT **EASY**  
Protector<sup>AI</sup>

Josh and Jenna  
show you how at [www.protectoraluminium.com.au](http://www.protectoraluminium.com.au)

## Easy Installation

Easy Screen has been specifically designed for simple DIY installation. All Easy Screen parts are purchased as separate elements so you only need to buy what you need, saving on waste. Easily create screens to fit any opening or application with basic DIY skills. Use Easy Screen for fencing and gates, around decks for privacy, to conceal garbage bins, pool filters and pumps, water tanks, a/c units, over windows for shade and airflow, create storage and planters, use it just about anywhere!

For details on how to install, grab a guide available instore or let Josh and Jenna show you how at [protectoraluminium.com.au](http://protectoraluminium.com.au)

## Easy Maintenance

Once assembled you can be sure of many years of maintenance-free-use, with only routine cleaning required to keep the aluminium powder-coated finish looking as fresh and modern as the day it was installed.

## Easy on the Eye!

There are three systems to choose from, adjustable louver, angled louver or flat slat, all profiles are modern, minimalist and stylish each incorporates the same exclusive tapered blade.

There is a choice of four standard colours in store or custom colours are available visit our website for details.

## Easy Fitting

All fixed type screens are held together by a Friction Fit system so all you need to do is slot blades into Friction Fit end rails and fit screen in place.

## Easy Compatibility

There are Easy Screen Friction Fit End Rails for use with hardwood and composite slats, make perfectly spaced screens in a fraction of the time. Look for the specially marked packaging.
