|---------------|-------------------------------------------------------------------------------|
| Model         | ACM-100                                                                       |
| Item number   | 71082                                                                         |
| Description   | Build-in multi dimmer                                                         |
| Type          | Receiver                                                                      |
| Feature 1     | Can be controlled wirelessly with any Trust Smart Home transmitter            |
| Feature 2     | Suitable for different types of dimmable lights (dimmable LED lights and ESL) |
| Feature 3     | 6 memory addresses (maximum of 6 transmitters per receiver)                   |
| Code-system   | Automatic                                                                     |
| RF reach      | Up to 30 meter (signal passes through walls)                                  |
| Compatibility | Works with all automatic code-system Trust Smart Home transmitters            |
| Power supply  | AC 220V/50Hz                                                                  |
| Frequency     | 433,92 MHz                                                                    |

|                            |                          |
|----------------------------|--------------------------|
| Blister material           | PVC                      |
| Products per package       | 1x receiver              |
| Packages per inner carton  | 10                       |
